

AIMSweb Training Workbooks

AIMSweb Training Workbooks are custom-designed to suit your training needs. Though we also offer you the option of self-publication of your own materials, we recognize that having materials pre-printed is an efficient and convenient option for many organizations.

By customizing these workbooks to your specific agenda, we reduce your expense by including only the materials you need in order to accomplish the training you desire for your group. Page counts typically range from 200-250 per booklet, but may be higher in some circumstances. Custom pricing for workbooks expanding beyond approximately 250 pages is available.
