

# PALM LINK for AIMSweb Progress Monitoring Systems

**AIMSWEB**<sup>®</sup>  
CHARTING THE PATH TO LITERACY  
POWERED BY EDFORMATION

## ADMINISTER AND SCORE CBM DIRECTLY ON HANDHELD DEVICES!

With the new Palm Link application for AIMSweb, assessment data capture and upload is quick, accurate, and efficient. AIMSweb Palm Link provides users with the ability to administer and score Curriculum-Based Measurement (CBM) on handheld/PDA devices and electronically upload scores to AIMSweb.

With Palm Link installed on a Palm Powered Handheld, easily load assessments and student rosters from AIMSweb onto your device. Select a student and measure and the administrator copy of the assessment will appear on the Handheld screen. Palm Link includes a built in timer and allows you to administer and score the test directly on the PDA by simply marking errors on the screen. Scores are calculated automatically and stored.

When you are done testing, connect the Handheld/PDA to your computer and the Palm Link software automatically uploads the data to AIMSweb.

Palm Link software eliminates hand data entry, manual score calculation, scoring on paper, and the need for an external timer.

Use of Palm Link software requires an AIMSweb subscription with the Data Capture Tools option. Handheld devices must be obtained separately.

For more information, visit [www.aimsweb.com](http://www.aimsweb.com) or call **888-944-1882**.

### AIMSWEB CBM MEASURES SUPPORTED:

**EARLY LITERACY/READING:** Letter Naming Fluency | Letter Sound Fluency | Nonsense Word Fluency  
Phoneme Segmentation Fluency | Oral Reading Fluency

**MIDE SPANISH EARLY LITERACY/READING:** Letter Naming Fluency | Letter Sound Fluency  
Syllable Segmentation Fluency Syllable Reading Fluency | Syllable and Word Spelling | Oral Reading Fluency

**EARLY NUMERACY:** Oral Counting | Missing Number | Number Identification | Quantity Discrimination

### REQUIREMENTS:

**IBM® PC COMPATIBLE**  
Windows 98SE, Windows®  
2000/XP

Pentium® III - 500 MHz  
(700 MHz or greater recommended)  
64 MB of RAM  
(128 MB or greater recommended)  
Free USB port  
100 MB Free Hard Disk Space  
56 Kbps or greater Internet access  
Palm™ Desktop 4.0.1 software  
Palm™ Hotsync® Manager 4.0 or  
greater  
AIMSweb Pro subscription

### APPLE

MacOS® 9.2.x, MacOS® 10.x  
Power Macintosh® 7300/180 or  
greater  
256 MB of RAM or greater  
Free USB Port  
56 Kbps or greater Internet access  
Palm™ Desktop 4.x software for  
Macintosh®  
Mac® Hotsync® Manager 3.x  
AIMSweb Pro subscription

### SUPPORTED HANDHELD DEVICES

Palm™ OS4: m500, m130, m505,  
m515, Tungsten™ W

Palm™ OS5: Zire™ 21, 31, 71, 72,  
Tungsten™ E, E2, T2, T3, T5, C,  
Life Drive™, Z22, T1X

# DIGITAL PEN SYSTEM for AIMSweb Progress Monitoring Systems

**AIMSweb**<sup>®</sup>  
CHARTING THE PATH TO LITERACY  
POWERED BY EDFORMATION

## CBM AND DIBELS™ DATA CAPTURE MADE FAST AND EASY!

Assessment data capture and entry is fast and simple with the new Digital Pen technology for AIMSweb. This digital scoring system provides a quick, easy, and comfortable way to capture Curriculum-Based Measurement (CBM) and DIBELS™ test scores and upload them electronically into AIMSweb.

Simply print AIMSweb CBM and/or DIBELS™ score sheets on Smart Paper, replace your regular writing tool with the Digital Pen, and administer the assessments. The pen writes with a standard ink cartridge while using an optical scanner to capture the scoring in memory.

When you are done testing, dock the pen in its cradle and the Digital Pen Software automatically uploads the scores to AIMSweb. If desired, the hard copy can be retained for your records.

Data capture and input with the Digital Pen is an amazing time saver and in most cases more accurate than human data entry.

Use of the Digital Pen System requires an AIMSweb Pro or AIMSweb Basic subscription with the Data Capture Tools option and at least one Digital Pen Kit. Pen Kits include one Digital Pen, one cradle, AIMSweb Digital Pen Software, and one Smart Paper pack.

For more information, visit [www.aimsweb.com](http://www.aimsweb.com) or call **888-944-1882**.

### REQUIREMENTS:

#### IBM® PC COMPATIBLE

- Windows® 2000, Windows® XP Home and Pro
- Pentium® III - 500 MHz (700 MHz or higher recommended)
- 128 MB of RAM (256 MB recommended)
- Free USB port
- Screen resolution of 800x600 and 256 colors
- Microsoft® .NET Framework 1.1 and above
- Microsoft® Internet Explorer 5.01 and above
- AIMSweb Pro or AIMSweb Basic subscription

**SUPPORTS ALL AIMSweb  
AND DIBELS™ MEASURES**
